OPENING STATEMENTS

Dear Greenwood Supporter,

2022-2023 was a banner year for Greenwood School! Under the leadership of our highly qualified Head of School and our competent Board of Trustees, Greenwood's programs have been taken to new heights. Our students continue to thrive, and we continue to serve them with a unique, challenging curriculum that focuses on strengths-based instruction.

Through the generosity of our donors, we have made many improvements to our campus including the continued build out of our nature trails and outdoor learning centers. Our theme for 2022-2023 was Health and Wellness and our school has been enhanced by the additions to our campus that promote the physical and emotional wellness of our students.

Please review this report and take note of the many ways in which Greenwood promotes the success of every student. We urge your continued participation and support as we grow to serve the students who make Greenwood the very special place that it continues to be.

Sincerely,

JUDY POPPELL
2021 - 2023 CHAIR, GREENWOOD BOARD OF TRUSTEES

Dear Parents, Students, Alumni, Friends and Community Members,

It gives me immense pleasure to present the 2022-23 Greenwood School Annual Report.

The report highlights the impact that your support has provided the students at Greenwood School. Our focus for the 2022-23 annual campaign was Health and Wellness. Through your generosity we have been able to integrate many health and wellness initiatives into the curriculum and provide robust learning opportunities for our students, both in and out of the classroom.

Greenwood School is truly a special place for our students to learn, grow and achieve. Many of our students come to Greenwood School with negative past experiences with schooling, low self esteem and limited opportunities to shine. Greenwood School provides our students the opportunity to excel and shine from the moment they step foot on our campus. We have an extraordinary faculty and staff that are highly trained and are committed to living our mission and making each moment count. They truly know how to differentiate the instruction so each and every student can learn and achieve. Greenwood is fortunate to have an amazing and supportive Board of Trustees who ensures that our faculty and staff have access and support to all that they need in the classroom and beyond.

A huge thank you to our Board of Trustees, Greenwood's faculty and staff, and to you, our parents, students, alumni, alumni parents, friends and community members who each play an integral part in the success of each and every student. Greenwood is a school of excellence. We pride ourselves on offering the best education to our students and families. We are at capacity with waiting lists in all of our grades. The future is bright as we continue to enhance our course offerings to our students, provide professional development to our staff, and prioritize not only the academics but the social/emotional/mental health of our students.

It is an honor to lead Greenwood into the future. We have so much to be proud of and the future is bright for all who enter our building.

I look forward to our continued partnership and I thank you again for your generosity.

With gratitude,

JACQUELINE HERMAN
HEAD OF SCHOOL

Dear Greenwood Community,

I want to begin by thanking all members of the Greenwood community for their support over the past year. Not only did we exceed our annual fund goal, we also had record turnout for school activities, events, and donations to other areas of the school that had not been funded previously.

This year our focus was on Health and Wellness. We saw additions to our outdoor education area with generous grants from the PGA Redcoats and the Tesori Family Foundation which allowed us to improve our outdoor fitness center and revamp our butterfly garden. These facilities will continue to improve the educational experience for our students. We are also incredibly grateful to The Lucy Gooding Foundation who continue to provide us with grant funding that allows us to have a Guidance Counselor and Mental Health Counselor on our staff full time. This is such a valuable resource for all our students and families.

With the growth of our drama and art programs and a renewed interest in our sports team participation we also saw donations increase for these areas. The addition of a Thespian Troupe and the success of our all-school production of The Little Mermaid, gave students another creative outlet to utilize and the experience of regional and state competitions.

The Annual Fund Campaign relies on the support of our entire Greenwood community, along with the greater public for donations. These donations allow us to cultivate many areas of the school which in turn allow our students to flourish. The funds support our extra-curricular activities, provide Greenwood Scholarship funding to families in need, support staff training, provide much-needed classroom equipment to assist students' accommodations, and enhance our campus.

Your support allows us to continue offering exceptional education to our community. We'd like to thank our amazing staff, Board of Trustees, parents, alumni, local businesses, and other friends of Greenwood who have continued to support us by giving freely of their time and donating to causes like our annual fund.

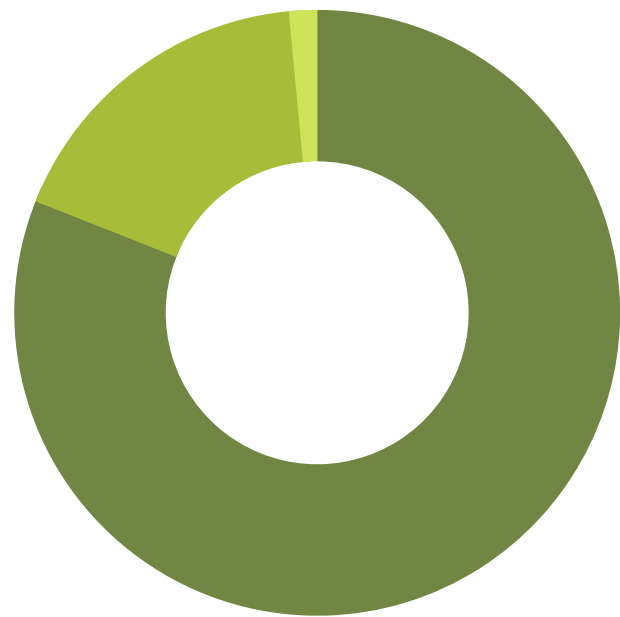

Sincerely,

KATE FRASER
DIRECTOR OF ADVANCEMENT

MISSION STATEMENT

The Greenwood School's Mission is to provide a challenging and supportive education to middle and high school students with learning differences. Through adaptive, multisensory instruction and a positive environment, students develop the knowledge and skills necessary to achieve their highest potential in the classroom and beyond.

GREENWOOD AT A GLANCE

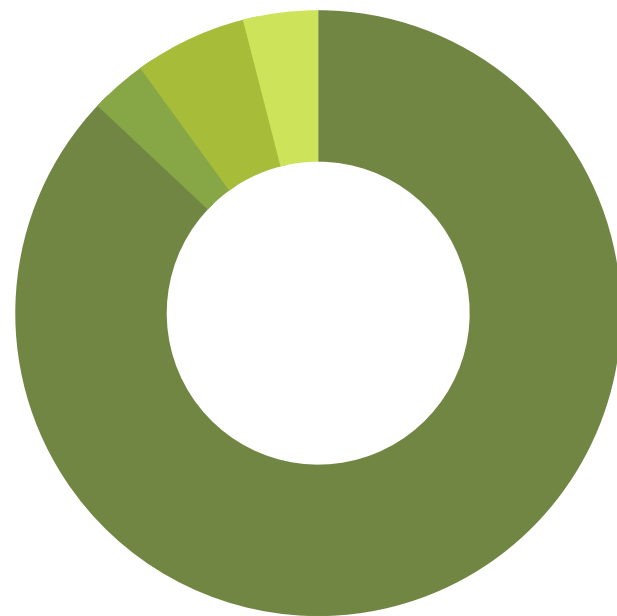

EXPENSE SUMMARY

	Personnel Expenses	81%
	Curriculum and Programming	17.5%
	Fundraising and Events	1.5%

INCOME SUMMARY

	Tuition and Fees	87%
	Restricted Grants	6%
	Endowment Resimbursement	4%
	Fundraising	3%

COST OF EDUCATING A GREENWOOD STUDENT?

The cost of educating a Greenwood student is \$17,000.00 a year. Tuition only covers a portion of what Greenwood offers to our students. Costs include:

- 01 Teacher salaries - Class sizes of 12:1 and competitive teacher salaries mean that our personnel costs are higher than your traditional public school
- 02 Free clubs and sports activities
- 03 Resources for multi-sensory instruction
- 04 Regular professional development opportunities for staff

OUR IMPACT

GENERAL ANNUAL FUND

Greenwood Scholarship Funds

Safety Additions: Enclosed front foyer to add additional security

Addition of water bottle filling stations in all wings

TOTAL: \$58,920.88

2021 - 2022

ARTS IN THE CURRICULUM

FOCUS FOR ANNUAL FUND

Greenwood Scholarship Funds

All-school drama workshop with the cast of Hamilton

Subsidized trips to Beyond Van Gogh and other experiences

Whole school production of The Little Mermaid

Creation of a black box theater room

Funding for an art room kiln

TOTAL RAISED: \$74,344.00

2022 - 2023

HEALTH AND WELLNESS

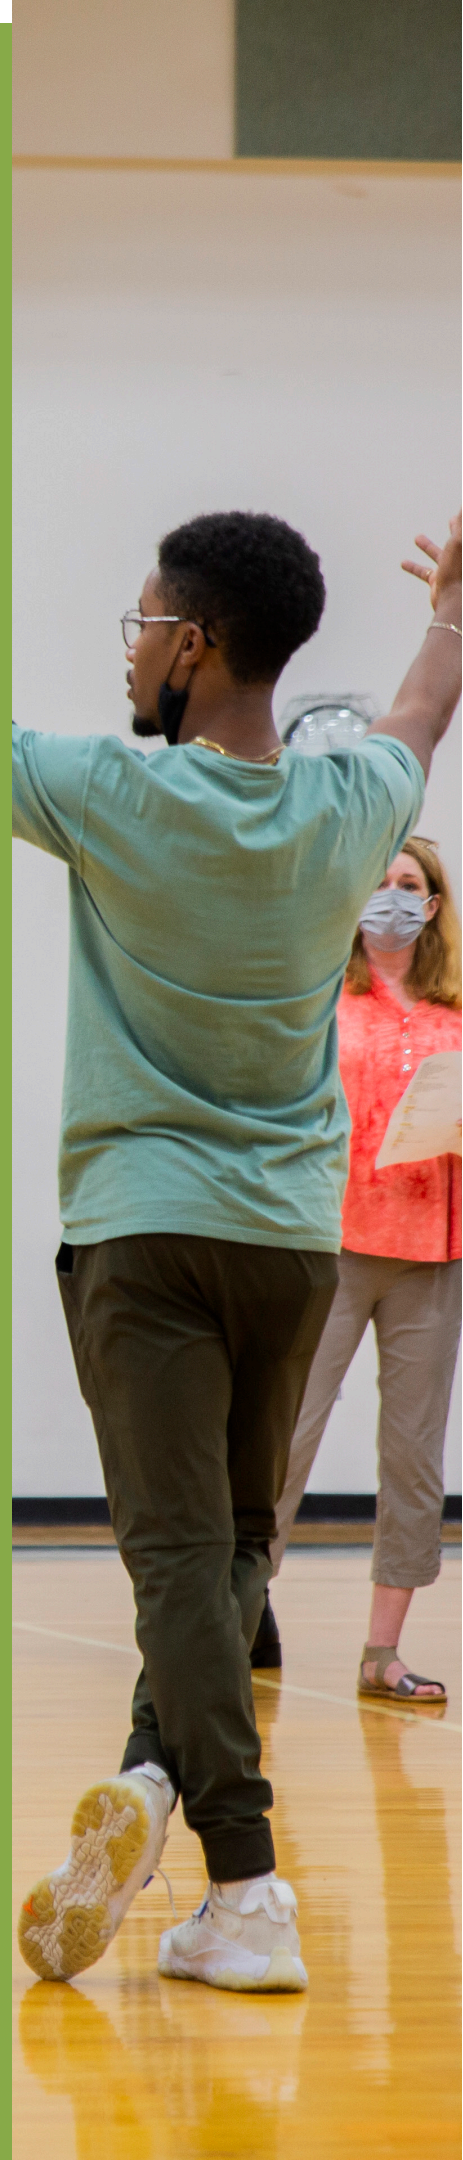

FOCUS FOR ANNUAL FUND

Greenwood Scholarship Funds

Details of spending will be issued in the next report.

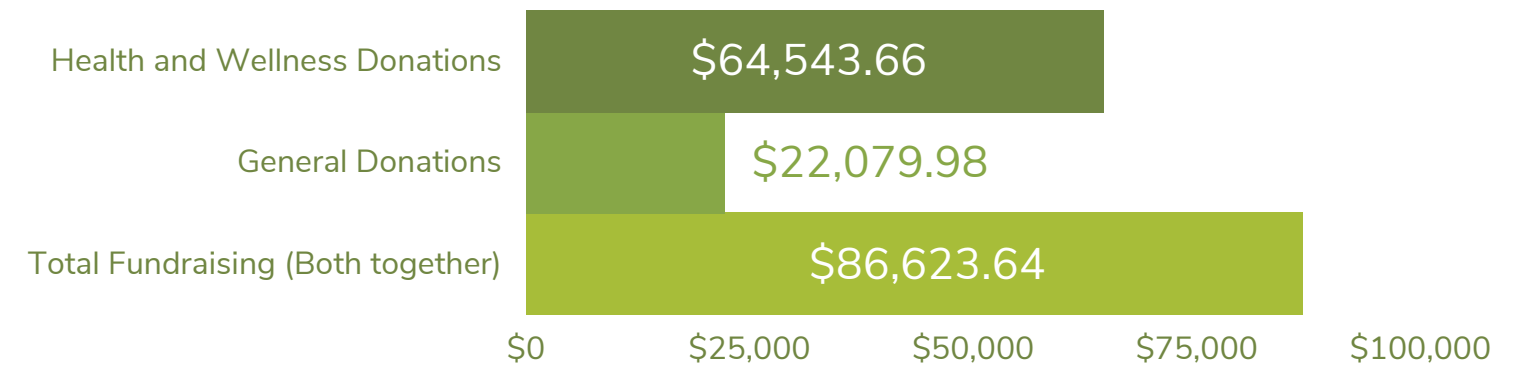

\$64,543.66 is earmarked for enriching the outdoor experience of our students, providing them with mental health support, and increasing resources for sports and clubs.

TOTAL RAISED: \$86,623.64

FUND OVERVIEW

AMOUNTS RAISED

AREAS OF FUNDING

This year we have had an increase in donations to specific areas of the school. With more students taking part in theater and sports, donations in these areas have increased.

DONATIONS TO SPORTS TEAMS

\$1,000.00

Sports teams donations were used to purchase equipment and trophies for flag football and basketball. Students entering Greenwood often lack self-confidence, and are frustrated or unmotivated due to past lack of success in school. They have difficulty communicating with their peers, developing and maintaining friendships, and resolving conflicts. In addition, the complex and pervasive nature of electronic communications and social media networking present significant issues for many individuals, linked in several recent studies to feelings of depression and isolation. Addressing these challenges directly with our students requires daily engagement, support, and guidance; and we try to provide as many opportunities as possible for outdoor learning and engagement. Greenwood School offers sports clubs at no additional cost to families. We encourage all students to take part in a club or extracurricular sports each semester.

DONATIONS TO THEATER
\$1,395.00

In March last year, the Greenwood School community put on our first full-scale, mainstage theater production: The Little Mermaid. With massive support from the 5&Dime Theater Company and guest lighting designer, Gabriel Barnet, the cast and crew were able to transform the Greenwood gymnasium into a beautiful stage. The production sold out every night and was a huge success. In October 2022, Greenwood officially chartered our first Thespian Troupe of the International Thespian Society: Troupe #10512. They competed at the District 2 Festival and 10 students attended the Thespian Festival in Tampa with lots of success: In our first year, Troupe 10512 earned 3 Excellents and 2 Superiors! A special thank you to Mr. Rivera, who has overseen both of these wonderful additions to Greenwood School. Watching our students express themselves through artistic means while growing in confidence has been a pleasure this year!

DONATIONS TO THE READING PROGRAM
\$300.00

Around 30% of Greenwood students have the primary exceptionality listed as dyslexia, although a great deal more are below grade level in reading and require support due to lack of accommodations elsewhere. Greenwood School uses the Rewards program in Middle School to support our students in reading, and to build their confidence in the subject. With the support of qualified teachers, our students find success in areas they once struggled in.

ALL-STAR KIDS IN NATURE CLINIC
\$550.00

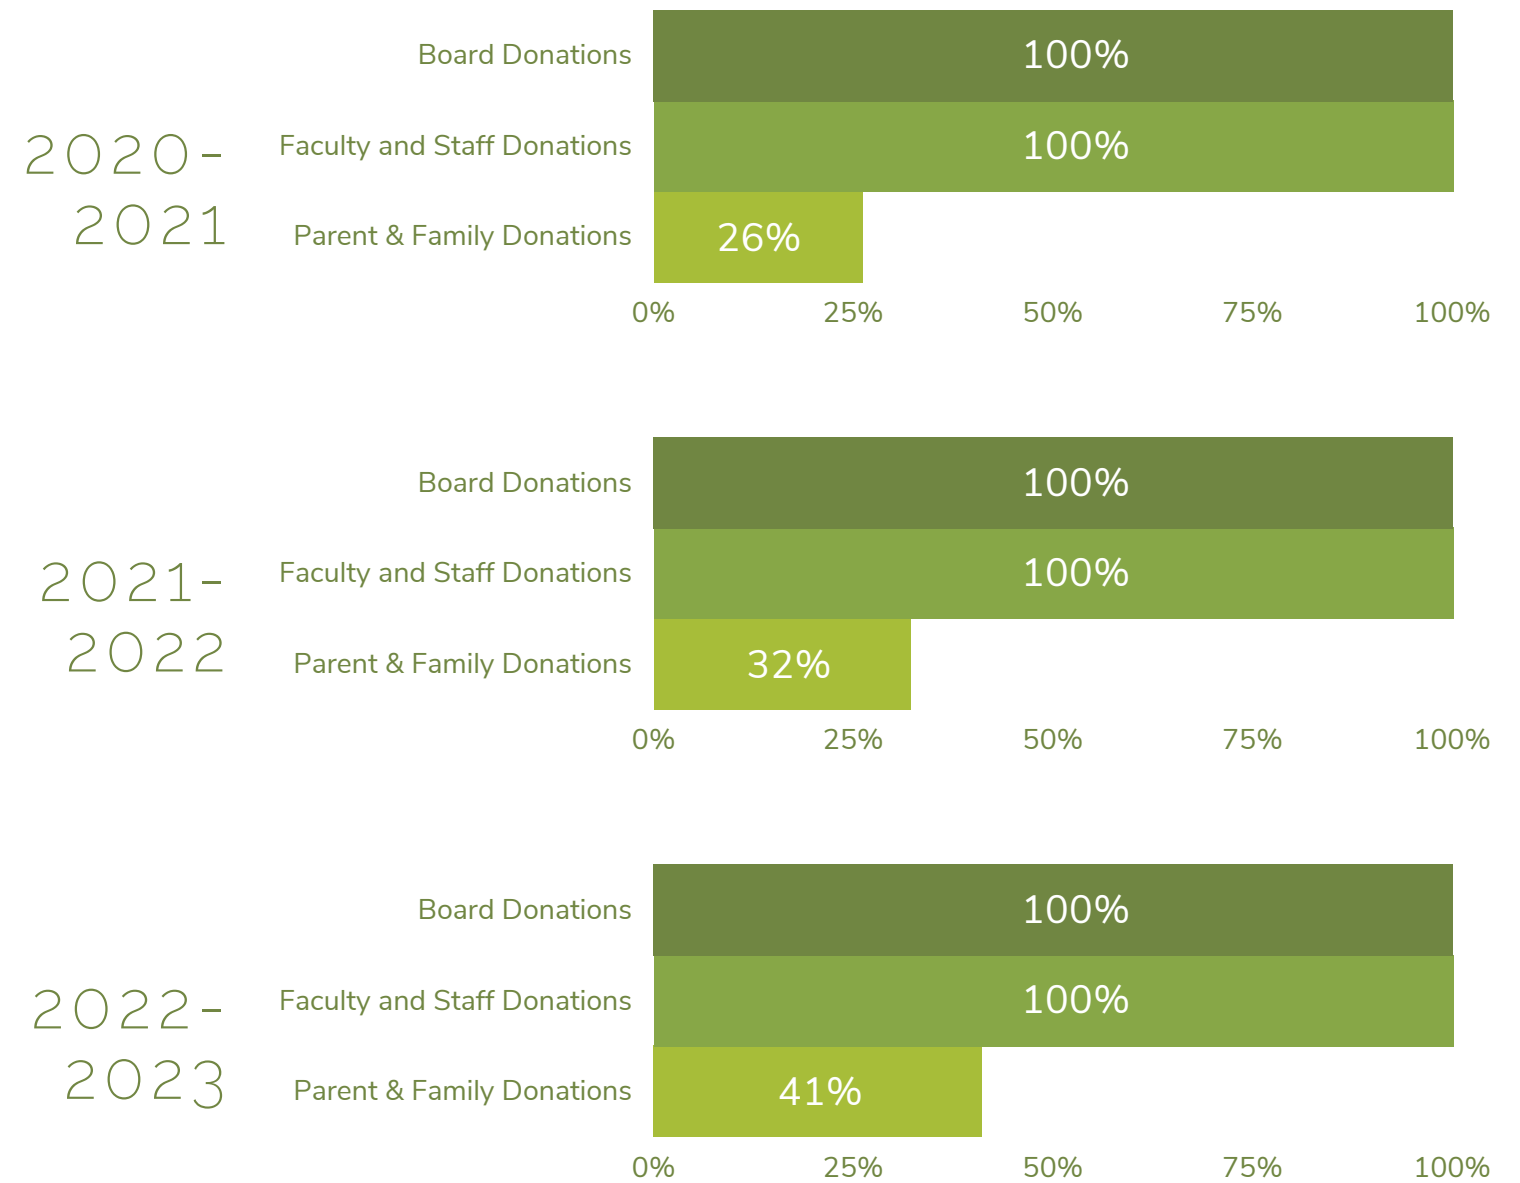

Greenwood School has a special partnership with the Tesori Family Foundation, which was founded in 2009 by PGA Tour caddy Paul Tesori and his wife Michelle. The Foundation provides specific programming throughout the United States for children with special needs. Greenwood School students have the opportunity twice a year to support these children and teach them about our incredible wetlands. It has been an inspiring program, developing students' leadership skills while bringing joy to those in our local community.

GREENWOOD SCHOOL SCHOLARSHIP
\$18,834.00

Greenwood School provides extra tuition assistance to those students who qualify for support. Financial need should not be a barrier to students who can flourish at Greenwood, and we strive to provide this additional support to those who need it most.

FUND SUMMARY
COMPARISON OF GIVING

GREENWOOD GRADUATES

Thirty-six students successfully graduated from Greenwood with their standard, traditionally tracked high school diploma in 2023.

Thirty two of those students went on to colleges and universities which include: Jacksonville University, University of Alabama, University of North Florida, University of Central Florida, Broward College, University of Florida, Savannah College of Art and Design, and Flight School at FSCJ. Other graduates enlisted in the military or enrolled in trade schools.

Greenwood School prepares students for college or career paths, and offers college and career fair opportunities, as well as college visits and regular guidance meetings with our guidance counselor to ensure students are confident in their chosen pathway. All students at Greenwood also complete guidance-based electives in college and career planning and adult transitions.

SENIOR REFLECTIONS

“I’ve been here for the past 7 years and it has been a fun, challenging, and crazy ride. When I first started here in 6th grade I was nervous, shy, had no friends, didn’t know anybody, and was very scared that people would make fun of me since I have high functioning autism. After the first 2 months here at Greenwood, I met new people and I wasn’t afraid to embrace my autism anymore. I was very nervous about starting high school. I thought the work would be really hard because I struggled in middle school. To my surprise, the skills my middle school teachers taught me finally clicked. I was able to do the work, and I enjoyed the best 4 years of my life: prom, the Icemen hockey games, our senior breakfast, and the zoo trip. I would like to thank all my middle school and high school teachers but most of all, I would like to thank my mom and dad - thank you so much for letting me go to this amazing school.”

GEORGE WALKER

“The moment I stepped foot into the school for the first time, I knew Greenwood would be my second home. From the small classrooms to the gym, these types of classrooms were ideal for my social anxiety. My biggest accomplishments were me being voted as Student Council President for two years straight, as well as being a National Honor Society member. Throughout my time as President, those skills I learned there helped me with my public speaking and leadership to carry on into the real world. The National Honor Society mainly taught me to serve the community and practice humility. Remember students, it is not too late to get yourself out there in the school community and find ways to work harder than you ever have. That’s how you win in life, and it starts right now.”

CALEB PASTRANA

“For me, Greenwood has been a huge help. I joined in my tenth grade year knowing almost no one and lacking social skills. I was nervous and didn’t know what would happen. But the environment, teachers and students made it so easy for me to get comfortable and grow. I became very interested and was understanding what I was doing. I realized that I would like to work in [the scientific field]. I am very thankful for my time at Greenwood, and I will be using the things I learned and the friendships I made for the rest of my life.”

MENACHEM GROSS

“When I transferred here to Greenwood, the teachers understood my differences, they understood my high energy, and they taught in a way I could finally understand. Yet one thing was like a wall with ivy vines grown over it. A wall with thorns sharper than a fine sword to climb over. That was my will to learn. Due to my past schools, teachers, and peers, I still was afraid of learning and wanting to ask for help. Through Greenwood, I was able to cut back those ivy vines and thorns and climb over the wall. Every single one of my teachers here at Greenwood never allowed me to give up. I thank Greenwood for giving me the tools to hack away at the ivy and thorns and clearing a path for me to get over that wall. I have my will for learning back and so many memories have been made.”

MORGAN (LENA)
HARRELL

“ Feeling like I was 'part of an ecosystem' at Greenwood rather than an 'invasive species' in my other schools, is a feeling I can't describe with words. ”

ROBERT BROWNLEE

“ Before I came to Greenwood I was the kind of the person who was just there, a bystander who didn't try to form relationships. Compared to my 7th-10th grade years, I have made significant personal growth. ”

NATHAN HART

“ It was during the end of 2020 when I first toured the school, and I was astonished to see how many students and even some teachers who were just like me. I had never seen so many people who could relate to me and my struggles before, especially in a singular building. I definitely stood out at first, but I took advice from my teachers and other students and focused on being a better person. I definitely made more friends than I have ever before and am much happier and more social. I am also very grateful for the amazing staff members that would socialize with and teach me new things. I am moving to South Florida very soon to attend Broward College to study finance and marketing, and maybe even computing. ”

WILLIAM MCLAREN

“ I came here my freshman year. I was a very shy person; I did not talk to anyone in class voluntarily. Over time, I came out of my shell. More than anything, this school helped me learn how to advocate for myself since that is how you get things done. The staff helped me realize that I am not alone with having to do school work but also knowing that it is okay to struggle. Greenwood gave me all the tools I need to go out into college and do all different kinds of experiences. In general, Greenwood has given me a place where I feel like I am welcome with open arms. ”

NADIA HOLTERMANN

“ The machine of life has new cogs and gears placed inside it today. We, the graduates of Greenwood, are those cogs and gears, for today life truly changes ...some of you will walk out today ready to reach your goals, while others are lost and searching for a purpose. It's not wrong to be lost or ahead of the curve, for the winds and oceans care not for how long it takes for you to reach your destination, for some day you will find what you're looking for. You bring something that no else brings: you bring-- you, yourself. This is what makes the machine of life truly remarkable, because no cog or wheel is ever the same. ”

COLIN KOHL

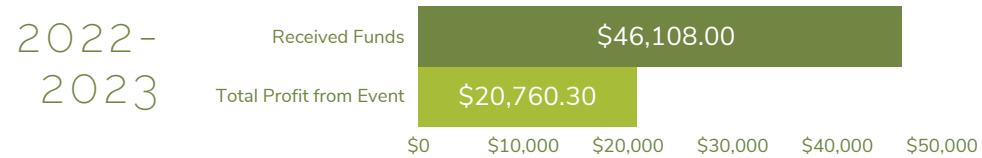

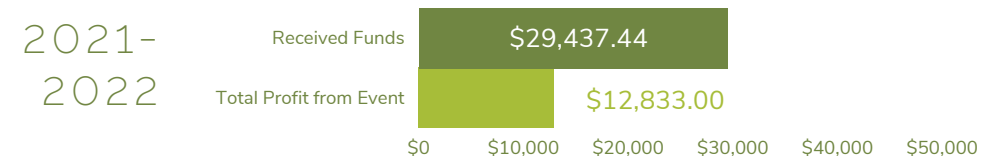

EVENT SPOTLIGHT: ANNUAL GALA

TOTAL RAISED: \$20,760.00

We had a wonderful time celebrating the success of the school at Deercreek Country Club for our 2nd annual Greenwood Gala. Our attendance grew from 160 attendees to 180, and we hope to continue to grow this event in 2024!

Speeches from Hannah Kay, a Greenwood Alum, and Chris and Cheryl Brownlee, parents of two recent Greenwood graduates, really echoed how important Greenwood is for each individual who attends the school. Hannah overcame her challenges with dyslexia, and is now the founder and CEO of a successful marketing business: OLAS Marketing. Both Hannah and Chris Brownlee have continued their roles at Greenwood and are now members of our Board of Trustees.

GALA PROFIT COMPARISON

We want to thank Deercreek Country Club for hosting such a wonderful event, Bold City Classics for providing incredible music, Stephanie Reller, who helped coordinate the event, and Rachel Brodsky and Michelle Thibodeau for helping with the auction and decor.

All funds raised at the gala will be used to support the Health and Wellness of our students. We hope you can all join us for the 2024 Annual Gala at the Sawgrass Marriott on April 6th.

EVENT/TEAM SPOTLIGHTS

LITTLE MERMAID

A special thank you to Mr. Rivera, Ms. Ellis, Mr. Kaz, Mr. Barnett, Ms. Meyers and the 5&Dime Theatre Co. for putting together such a fantastic production. Thirty students from grades 6-12 took part in the production, with many other members of staff supporting the production backstage. The show was standing room only in every show. Thank you to all those who participated and came to support the production.

THESPIAN TROUPE

In our first year, our Greenwood Thespians #10512 exceeded all expectations. The troupe competed at the District 2 Competition and had 5 students qualify for the State Competition in March of 2023. 9 students attended the State Thespians Festival in Tampa. While here they completed workshops, watched plays, and immersed themselves in the thespian culture. Troupe 10512 earned an astonishing 3 Excellents and 2 Superiors at state level! We cannot wait to see what they will accomplish in 2024!

ROBOTICS TEAM

Greenwood Robotics competed in competition for the second year in a row in 2023. Our robotics knowledge is expanding and Greenwood came away with the Judge's Choice award for the second year in a row! In competition, students must work closely with other schools to strategize and win heats against two other competing schools. They must not only work closely with each other, but develop ever-changing game plans with other schools. Our students have really enjoyed the competitive aspect of robotics, and we are excited to introduce middle school LEGO robotics in 2024, along with a new STEAM room to allow us to expand science, technology, engineering, art, and math across the curriculum. A special thank you to Bolts and Bytes who have been our expert consults throughout this expansion, to the Reller family for your donations to the new space, and to Ms. Surowiec for coaching the Robotics Team and creating an inspirational environment for our students to excel!

SPORTS TEAMS

Greenwood continues to offer a number of sporting opportunities to students throughout the school year which include basketball, volleyball, cheerleading, and flag football. These sports are offered at no cost to families. Students entering Greenwood often lack self-confidence and are frustrated or unmotivated due to past lack of success in school. They have difficulty communicating with their peers, developing and maintaining friendships, and resolving conflicts. In addition, the complex and pervasive nature of electronic communications and social media networking present significant issues for many individuals, linked in several recent studies to feelings of depression and isolation. Addressing these challenges directly with our students requires daily engagement, support, and guidance; and we try to provide as many opportunities as possible for outdoor activities. We have seen a growing number of students participating in extra-curricular activities this year and hope to see that continue in 2024 with even more offerings. Thank you to the Greenwood staff who offer these opportunities to our students.

TESORI FAMILY FOUNDATION CLINIC - ALL STAR KIDS IN NATURE

Greenwood School's relationship with the Tesori Family Foundation continued in the 2022-2023 school year, and we held two very successful events for the All Star Kids in Nature. The Tesori Family Foundation supports those in need in the Northeast Florida area, providing programming for children with special needs including, but not limited to, Down Syndrome. Greenwood School is proud to open our doors to welcome the Tesoris and those who attended the clinic. With over 40 student volunteers in the 2022-2023 school year, our clinics were a huge success as we explored the wetlands and learned about the life cycle of Monarch butterflies. We hope to continue to develop this amazing program for years to come.

LUCY GOODING CHARITABLE TRUST FOUNDATION GRANT

\$30,000.00

Greenwood School has been the recipient of the Lucy Gooding Charitable Trust Foundation grant for many years. The guidance counselor program at Greenwood is now entering its fourteenth year. Thanks to the funding of the Lucy Gooding Charitable Trust Foundation, Greenwood has been able to provide our students with guidance counseling services that are critical for success in school, and life beyond graduation. For 2022-2023, Greenwood has continued to expand the breadth and depth of the guidance programs, and integrate them more fully into the curriculum, while providing services of an on-site mental health counselor for students who need additional support.

PGA TOUR RED COATS GRANT

\$7,500.00

Thanks to generous grants from The Red Coats in 2021 and 2022, and matching funds from other donors, we built an ADA-accessible fitness center in the heart of our wetlands; this was completed in June 2022. The fitness center is used daily, and we have already seen an increase in focus and engagement, as well as strength and fitness in our students. The equipment is designed to improve students' balance and coordination, as well as their agility and core body strength. Equipment such as push-up bars, parallel bars, and overhead ladders now enable our students to build fitness, strength, confidence, problem-solving skills, and strategic planning skills, both individually and as a team.

TESORI FAMILY FOUNDATION COMMUNITY GRANT

\$5000.00

Greenwood received a generous grant from the Tesori Family Foundation in 2022 to improve the Environmental Education program. With the grant funds, we purchased greenhouses so that students can cultivate their own native plants, and built a large butterfly enclosure to ensure that our monarch butterfly waystation and migration research can successfully continue. We hope to continue providing education to groups outside of the Greenwood community to ensure that education about conservation continues throughout Northeast Florida. Exposure to gardens, further active interactions, and participation with nature provide mental and physiological advantages that improve healing and therapy.

RESTRICTED GRANTS AND PROGRESS ON THESE PROJECTS

BENTON FAMILY FOUNDATION GRANT

\$150,000.00

TO ENHANCE OUTDOOR EDUCATION

Greenwood School has been the recipient of the Benton Family Foundation grant for two years. In 2021-2022 the funds were used to build our outdoor education center in the wetlands, providing outdoor classroom space and a stage for students to utilize.

The grant received in 2022-2023 has been earmarked for campus expansion.

THANK YOU TO THE FOLLOWING DONORS...

A special thank you is in order for Mr. David Stein. His continued support and commitment to Greenwood School has enabled us to provide students with valuable resources that are crucial to their success.

WE'D LIKE TO THANK THE FOLLOWING DONORS FOR THEIR CONTINUED SUPPORT OF GREENWOOD SCHOOL
